i got this a joke and tbh its\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665\u2665 it. Nice animations, the game includes a real story.

Good game for rainy days :). Superbrothers seems to be a game for a certain audience.

From where I'm standing, it's got interesting visuals and decent music, but the narrative feels like a collection of tweets stuck together by gum and shoestring. Game is very pretentious and goes "ooh, so mysterious, we're not explaining anything, it's so confusing to you!" at every opportunity.

Ontop of that, the controls and UI are garbage. The controls seem to be designed for a touchscreen, and while that isn't too bad on it's own, they also use a lot of gestures that would not be comfortable with touch (and are annoying with M+KB) - you have to doubleclick to interact/walk up to, press and hold to guide the character, click and drag to move screen around and rightclick to open combat screen. WASD/arrows ARE used in the game, but only to move around the viewport.

UI does not help it at all, being full of slow, drawn out animations for everything, as well as being stylized to point of being unhelpful.

This game is not a good point&click adventure, it does not have a captivating story and it likes to talk down to you.

I can not recommend it.. Its like the first one but somehow manages to be even worse. The first was extremely dull and annoying but it had some charm with the faceless block creatures but they changed that and added faces. Basically if you werent bored to death by the first one then still avoid this because its crap.. Great puzzle game, with great music, I would absolutely recommend it.

Although, with only 63 levels, it can has a short lifetime, and I recommend getting this game on sale, on in a bundle.. Download the Demo play the Demo and then want more . This is one of the best early dev games I have played , I like the crafting a change from the usuall and easy to understand . Graphics are good for early dev , plenty to craft , maps are filled with caves to explore all in all it is worth buying and supporting the devs.

17V10V18

over 3 yrs since I wrote my review and not a lot has been done to the game in 3 yrs so unless you really want to support the Dev then I would not buy this game untill and if it is ever finished. Pistol Sword and a chainsaw,this girl is badass and have no mercy to evil

She Has Skill to weaken enemies

my favorite dlc character because her character design.

**\*\*QUICK THOUGHTS\*\***

As minimal as it can \u2665\u2665\u2665\u2665ing get for an early access platformer. Take 'The Impossible Game'. slap on even more crudely drawn Microsoft paint images and a supposed "coffin" containing your hero. absurdely hard jumps. and you get this nightmare of a title that doesn't even let you play without solving the riddle of the \u2665\u2665\u2665\u2665ing sphynx.

Of course, this is referring to the game during launch. If you're not sure how to get to the game until it's fixed (which the developer has informed me is being worked on), simply load game, close game at difficulty select, start game again, choose continue game, then first stage. (Or just click the giant red START I chocked up to being a header given it's placement. Again, developer clarified this)

---

The first stage is passable but don't ask me how the hell I did it. Thumbs up for recommendation simply because it lives up to exactly what the title says. Your experience on level 2 and beyond may vary though. I also fear the later two difficulties and what hell they shall bring with them.

Just keep calm, and carry on. And remember, "World remember you.". Very underrated game. People compare it to trine because of the idea of having multiple characters with different abilities to solve puzzles, but having played them both back to back (trine first, then this game) this game has a very unique feel to it.

Pros:

-7 characters to use and it is easy to switch seamlessly between them, every character is assigned a shortcut key, it will take some time to learn them all but once you do switching between all 7 becomes seamless, there is also a character wheel you can use while you get used to the shortcuts.

-each character has different combat abilities, while the combat is not deep. I did enjoy it more than trine. In trine I always found I would just hang back with the archer and shoot everyone, this game gives you more variety in how you handle combat and in later levels it forces you to use all your characters in battles.

-very inventive puzzles, this is not a physics based game, and while some of the puzzles are cookie cutter a good deal of them are brilliantly done. You will spend a few minutes trying to figure out what to do and then you will actually have to execute your plan, quickly in many cases since many of the puzzles are timed. Except for one puzzle at the very end of the game, I enjoyed the puzzles in this game tremendously

Cons:

-bosses are simple learn pattern, attack, rinse repeat kind of affairs. I did enjoy the last boss battle, but the other bosses were pretty simple and a bit repetitive.

Overall, I had a lot of fun with this game, it does lack a certain level of polish but if your into puzzle platformers with a nice mix of action thrown in you could do a lot worse than this game.

Edit: Worse game then Barbie's Dreamhouse Party

This game is not good at all. Most boring music "based" game on steam so far. Plus it's plagued with problems and the guy's programmer left so promised patches never got released. This game is dead. I would not recommend it at all.. So.... I thought this game had something to do with ley lines... NOT!

It's witchcraft done through a pretty arrow-slinging witch. Yep.

Myria is another name of mother goddess worship. Diana. Isis. Easter. Whatever. The KJV bible names her Astarte, the consort of Baal. Baal is Satan. So... worshipping this ♥♥♥♥♥♥, Myria, is akin to worshipping Satan. Doing things for this harlot devil is akin to doing things for Satan. Sacrificing for this mother of abominations is akin to sacrificing for Satan. Are you comprehending? Myria is a devil high up in Satan's hierarchy.

In this game, you're Myria's "chosen one". Doesn't that just make you feel so f-cking special.

Enjoy.

*And there came one of the seven angels which had the seven vials, and talked with me, saying unto me, Come hither, I will shew unto thee the judgment of the great ♥♥♥♥♥♥ that sitteth upon many waters:*

*With whom the kings of the earth have committed fornication, and the inhabitants of the earth have been made drunk with the wine of her fornication.*

*So he carried me away in the spirit into the wilderness: and I saw a woman sit upon a scarlet coloured beast, full of names of blasphemy, having seven heads and ten horns.*

*And the woman was arrayed in purple and scarlet colour, and decked with gold and precious stones and pearls, having a golden cup in her hand full of abominations and filthiness of her fornication:*

*And upon her forehead was a name written, MYSTERY, BABYLON THE GREAT, THE MOTHER OF HARLOTS AND ABOMINATIONS OF THE EARTH.*

*And I saw the woman drunken with the blood of the saints, and with the blood of the martyrs of Jesus: and when I saw her, I wondered with great admiration.*

*And the angel said unto me, Wherefore didst thou marvel? I will tell thee the mystery of the woman, and of the beast that carrieth her, which hath the seven heads and ten horns.*

-----

*For a certain man named Demetrius, a silversmith, which made silver shrines for Diana, brought no small gain unto the craftsmen;*

*Whom he called together with the workmen of like occupation, and said, Sirs, ye know that by this craft we have our wealth.*

*Moreover ye see and hear, that not alone at Ephesus, but almost throughout all Asia, this Paul hath persuaded and turned away much people, saying that they be no gods, which are made with hands:*

*So that not only this our craft is in danger to be set at nought; but also that the temple of the great goddess Diana should be despised, and her magnificence should be destroyed, whom all Asia and the world worshippeth.*

*And when they heard these sayings, they were full of wrath, and cried out, saying, Great is Diana of the Ephesians.*

---

---

*For rebellion is as the sin of witchcraft, and stubbornness is as iniquity and idolatry. Because thou hast rejected the word of the LORD, he hath also rejected thee from being king.*
